### Garnish (optional):

- 1/4 cup Coconut Milk
- 1/2 Lime, cut in wedges
- 1/4 cup cooked & shredded chicken

## INSTRUCTIONS

Keys to creating a great soup:

1. Choose a star ingredient: Sweet Potato
2. Next, a supporting ingredient: Lentils
3. Then pick the liquid(s): Stock & Coconut Milk
4. Finally, choose a style: Caribbean Curry, Scotch Bonnet & Thyme

1. Peel sweet potatoes, cut into 1 inch cubes.
2. In a medium pot, over medium heat, add coconut oil and sweat the sweet potato cubes for 5 minutes. Find the right [KitchenAid® Range](#) for making soup. Explore electric, gas, and induction models.

3. Add curry powder to the pot and stir for 1 minute.
4. Add lentils, chicken stock, coconut milk, salt, and thyme sprigs.
5. Optional step: Float a scotch bonnet pepper on top of the soup for flavour.

- If you prefer the soup mild, be careful not to burst the pepper. If you prefer it spicy, slice the pepper in half. For very spicy soup, chop the scotch bonnet before adding.
6. Bring the soup to a simmer for 20-25 minutes or until the sweet potato is fork tender.
  7. Serve in warm heated bowls, and garnish with coconut milk, lime and cooked chicken. You can store all your fresh ingredients for later in a [KitchenAid® Refrigerator](#), available in a variety of configurations.
