

**Nominees must use this template, or their application will not be considered.**

Nominees must provide the following information in their CV to assist the committee in their assessment. Note that this is an integral part of the evaluation process, therefore no page limit has been applied. This completed document must be uploaded in EGrAMS as a single PDF. Please use this naming format for the file: **lastname\_firstname-CV**

**A) Personal Information**

Name:

Position Title:

**Education/Training:** *Begin with baccalaureate or other initial professional education such as nursing school, include doctoral, postdoctoral and residency training if applicable. Add/delete rows as needed.*

Institution and location	Degree	Completion Date (MM/YYYY)	Field of Study

**B) Personal Statement**

*Provide a brief biography. This section is optional but encouraged.*

**C) Academic Appointments**

*List in chronological order the academic appointments you've held concluding with your present appointment. For each entry, indicate appointment, department, institution, and start and end dates.*

**D) Awards and Honours**

*List in chronological order the awards and honours you've held that are relevant to your nomination, concluding with the most recent one. Include any relevant academic and professional achievements.*

### E) Leadership positions

List in chronological order the leadership positions you've held that are relevant to your nomination, concluding with the most recent one.

### F) Significant Contributions

Describe your 5 most significant contributions and their importance/relevance to this award over your entire academic/research career. Contributions may include but not limited to the following (in alphabetical order):

- advances to equity, diversity, inclusion and accessibility in the research ecosystem
- advocacy efforts in support of cancer research or care
- community service
- contributions to policies, regulations and guidelines
- development of tools utilized by other researchers or the general public
- membership or leadership roles in boards or committees
- mentorship and career development of trainees and early career investigators
- traditional research outputs (academic research publications, book chapters, conference proceedings, etc.)

CCS encourages the inclusion of a broad range of contributions and outputs beyond academic research publications, especially for nominees for the Lifetime Contribution and Inclusive Excellence Prizes.

Provide a brief description of your contribution and the significance or impact to your field and/or community.

### G) Mentorship/Supervision

List students and trainees supervised formally (including any awards won), by year(s) and name. Include current position if known and applicable.

### H) Peer Review and Related Contributions

List peer review, advisory committee memberships and other related voluntary contributions to the research community. Include geographical scope (local, provincial, national, international) where applicable.

### I) Invited Conference Presentations

List invited presentations relevant to this award, including (at a minimum), the conference year and title, and the title and type of presentation given.

### J) Patents Granted and Licensed

List any patents granted or licensed relevant to this award, including (at a minimum) names, numbers and dates.

### K) Research Grant Support

List grant support received over your entire academic/research career.

Grant title:

Source:

Total amount of funding:

Grant term: Start – End dates

Role:

Grant participants:

### L) Publications (All relevant)

List all relevant publications over your entire academic/research career. Provide details for major publications. If available, provide a link to your Open Researcher and Contributor ID (ORCID) profile, and if applicable you may also provide a DOI link for any additional publications.

### M) Additional Information

Please add any additional information you believe is relevant to your application that has not been addressed. This may include work, volunteering, knowledge sharing, or other experiences that are not necessarily related to cancer or research, but **that demonstrate your value as a nominee.**
