

Score	UC-20 Relevance Rating Scale <i>Levels of relevance and their characteristics</i>	Priority for funding
4.2 – 5.0	<p>Very relevant</p> <p>The proposed work is directly focused on one or more of the following: uterine carcinosarcoma; serous carcinoma; uterine leiomyosarcoma; uterine clear cell carcinoma; endometrial stromal sarcoma (high-grade); or undifferentiated sarcomas</p> <p>AND</p> <p>Project exhibits at least one of the following:</p> <ul style="list-style-type: none"> • The proposed work will make an exceptional scientific contribution to our understanding of rare and aggressive uterine cancers, as it relates to prevention, detection, diagnosis and/or treatment of these cancers. • The proposed work will have a significant impact on patient outcomes • The proposed work will measurably influence the Canadian health care system as it relates to the prevention, detection, diagnosis and/or treatment of rare and aggressive uterine cancers. 	High
3.4 – 4.1	<p>Somewhat relevant</p> <p>The proposed work is at least mainly focused on one or more of the following: uterine carcinosarcoma; serous carcinoma; uterine leiomyosarcoma; uterine clear cell carcinoma; endometrial stromal sarcoma (high-grade); or undifferentiated sarcomas</p> <p>AND</p> <p>Project exhibits at least one of the following:</p> <ul style="list-style-type: none"> • The proposed work will make a substantial scientific contribution to our understanding of rare and aggressive uterine cancers, as it relates to prevention, detection, diagnosis and/or treatment of these cancers. • The proposed work will improve patient outcomes • The proposed work may influence the Canadian health care system, as it relates to the prevention, detection, diagnosis and/or treatment of rare and aggressive uterine cancers. 	Medium
3.0 – 3.3	<p>Not very relevant</p> <p>The proposed work is not very focused on one or more of the following: uterine carcinosarcoma; serous carcinoma; uterine leiomyosarcoma; uterine clear cell carcinoma; endometrial stromal sarcoma (high-grade); or undifferentiated sarcomas</p> <p>AND</p> <p>Project exhibits at least one of the following:</p> <ul style="list-style-type: none"> • The proposed work will make a limited scientific contribution to our understanding of rare and aggressive uterine cancers, as it relates to prevention, detection, diagnosis and/or treatment of these cancers. • The proposed work will have limited contribution to patient outcomes • The proposed work is not likely to influence the Canadian health care system, as it relates to the prevention, detection, diagnosis and/or treatment of rare and aggressive uterine cancers. 	Low
Below 3.0	There are major weaknesses and the proposal needs further development before being competitive in this competition.	Lowest
Unscored (mark as 0.01)	The proposed work is not considered relevant and impactful to the uterine cancer field. There was little to no alignment to the specific goals of the funding opportunity.	None
